Timber harvest and forest sector jobs data is from 2017. Wood processing data is from 2013. Jobs data is from the Oregon Employment Department. Ownership, harvest data and map provided by the Oregon Department of Forestry.
OREGON TIMBER HARVEST BY OWNER

A BALANCED APPROACH - FORESTLAND MANAGEMENT CLASSES

Oregon's forests are managed for three primary purposes: timber production, multi-resource, including recreation, water and wildlife, and reserves with limited timber harvest that are set aside as parks or wilderness areas, or to protect endangered species habitat.
